TRAINING AND PLACEMENT CELL OVERVIEW

Training and Placement Cell (T&P Cell) is essential to bridging the knowledge gap between academia and the working world. Its main goal is to give pupils the chance to improve their abilities and land jobs in respectable companies. Career counseling, technical and soft skill development programs, industry exposure through internships and industry visits, and campus recruiting efforts are just a few of the many services provided by the T&P Cell. In order to streamline the placement process and guarantee that students are adequately equipped to satisfy industry standards, it collaborates closely with top businesses. The cell not only places students in jobs but also encourages entrepreneurship by helping students who want to launch their own businesses. The T&P Cell works to develop students into professionals who are prepared for the workforce through its all-encompassing strategy, which supports their total professional development and achievement.

Objectives:

1. To assist students discover their skills, investigate other career alternatives, and make educated decisions about their futures by offering them career counseling and guidance.
2. By providing internships, company visits, and guest lectures, we hope to expose students to the business world and help them grasp how their academic knowledge is applied in the real world.
3. By planning skill development programs that emphasize the technical, soft, and interpersonal skills needed by the industry—such as workshops, seminars, and training sessions—we can increase students' employability.
4. To work with different companies to streamline the campus recruitment process and guarantee that students have access to placement options with reputable companies in their field of study.
5. To encourage student entrepreneurship by offering tools, coaching, and direction to individuals who want to launch their own businesses.
